Professional Summary

Computer Science and Engineering graduate with practical experience in web development, responsive website design, and team mentoring. Interested in building user-focused web applications and applying machine learning to real-world problems, including Assamese-language sentiment analysis.

Education

Master of Technology (M.Tech), Computer Science and Engineering — AI and ML *2026–2028*
Dibrugarh University Institute of Engineering and Technology, Dibrugarh

Bachelor of Technology (B.Tech), Computer Science and Engineering *2021–2025*
Dibrugarh University Institute of Engineering and Technology, Dibrugarh

Experience

Web Development Team Lead *Oct 2023 – Present*
Sanganak Coding Club, Dibrugarh
- Mentor and support web team members, helping them complete development tasks and improve their technical skills.
- Contribute to the coding club website and web content for workshops, events, and member resources.

Web Developer *Jul 2023 – Jul 2024*
Thum Zero, Remote
- Developed and maintained a responsive website for finance and business-related articles and company information.
- Collaborated on website features, content presentation, and improvements to the user experience.

Web Development Intern *Dec 2023 – Jan 2024*
Bharat Intern, Remote
- Built a portfolio website, a weather application using a web API, and a Netflix homepage replica with HTML, CSS, and JavaScript.

Web Development Intern *Jun 2023 – Jul 2023*
Oasis Infobyte, Remote
- Completed web development and design tasks, implementing responsive pages with HTML, CSS, and JavaScript.

Artificial Neural Network Intern *Jun 2023 – Jul 2023*
Tezpur University, Tezpur
- Explored handwritten-digit recognition using artificial neural networks and image classification techniques.

Publications

Bridging techniques and applications in sentiment analysis: Approaches, challenges, and emerging trends
Sachin Deori, Tulika Chutia, Hirok Jyoti Saikia, Anjan Boro, Nomi Baruah
Engineering Applications of Artificial Intelligence, 2026.
DOI: 10.1016/j.engappai.2025.113255

Selected Projects

Sentiment Analysis of Assamese Social Media Text Using cGAN *Dec 2024 – Jun 2025*
- Built a low-resource Assamese sentiment-analysis prototype using a custom dataset of approximately 4,800 positive and negative text samples.
- Explored a conditional Generative Adversarial Network (cGAN) workflow in PyTorch for sentiment-conditioned synthetic text generation and classification; reported 86% accuracy, precision, recall, and F1-score in the project summary.

Sanganak Coding Club Website *Oct 2023 – Nov 2023*
- Created a website using HTML, CSS, JavaScript, and Bootstrap to present club information, workshops, events, and member resources.

Dhekiajuli Buddies Website *Jul 2023 – Sep 2023*
- Developed a responsive website presenting company information, services, team details, and articles across desktop and mobile devices.

Thum Zero Website *Jul 2023 – Sep 2023*
- Built a responsive website for publishing finance and business content and presenting company information.

Weather Website *Dec 2023 – Jan 2024*
- Developed a weather web app using HTML, CSS, JavaScript, and an API to retrieve and display current weather conditions.

Text Extraction from Images Using Tesseract OCR *May 2024*
- Implemented an OCR workflow to extract editable text from image-based documents.

Netflix Homepage Replica *Dec 2023 – Jan 2024*

- Recreated a streaming-service homepage layout using HTML and CSS.

Handwritten Digit Recognition Using Deep Learning *Jun 2023 – Jul 2023*

- Explored neural-network-based classification of handwritten digit images.

Technical Skills

Languages: Python, C, C++, JavaScript, HTML, CSS, PHP
Web Development: React.js, Node.js, Bootstrap, WordPress
Databases and Tools: MySQL, MongoDB, Firebase, Git, GitHub, VS Code, Linux
Machine Learning: PyTorch, artificial neural networks, natural language processing, Tesseract OCR
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Software Engineering

Certifications and Training

- AWS Cloud Virtual Internship — AICTE–Eduskills, May–July 2023
- Palo Alto Cybersecurity Virtual Internship — AICTE–Eduskills, Dec 2022–Feb 2023
- Full Stack Web Development Program — Edureka
- C++ Programming Essentials Bootcamp — LetsUpgrade, Feb 2023
- HTML & CSS Essentials Bootcamp — LetsUpgrade, Feb 2023
- JavaScript Programming Essentials Bootcamp — LetsUpgrade, Feb 2023
- Python Programming Essentials Bootcamp — LetsUpgrade, Feb 2023

Leadership and Languages

Leadership: Web Development Team Lead, Sanganak Coding Club; mentoring and supporting web team members.
Languages: Assamese, Bodo, English, Hindi
